Mastodon Everbearing Strawberry

You will never regret it if you plant Mastodon Everbearing this year. You will have crop insurance with the biggest crops and the quickest profits from the least amount of ground. 1000 Mastodon plants have brought our customers from \$60.00 to \$125.00. Fruiting six months out of eight set same year.

We have grown this Wonder Berry now for eleven years and have found it the best by test. The huge size of the berries is truly marvelous. Just like little apples. Nine Strawberries will top a quart box.

The largest berries on record and the nearest perfect in every way, size, color, sweetness, flavor and hardiness. Mastodon has a record of 5,520 quarts per acre. Sure an ideal berry. Easy to sell from its appearance alone. A fancy berry in the truest sense of the word, which greatly adds to its

market for top prices. We can safely say that we grow and sell more Mastodon Everbearing Strawberries around New Buffalo, Mich., and on the highway to roadside trade than any other place in the United States. Over 2,500 quarts of Everbearers were picked the week of October 25th. We sold at our roadside stand 280 quarts in five hours.

Mastodon plants can be set just as early as your ground can be worked. Earlier the better. Keep off buds sixty days. Our plants are grown on good rich manured, sandy loam, which means lots of extra fine deep rooted plants. First Class Certified TRUE-TO-NAME plants at reasonable prices. Fresh dug, hand cleaned and tied with red string. Act wisely and order EARLY.

Champion Everbearing

Champion Everbearing bears large aromatic flavored Strawberries of deep dark red as sweet as honey. Originated by us in 1914. Holds U. S. record from one acre, \$2,459.20. Picked 5,623 quarts in 129 days same year set. Strawberries from July until snowfall. Our propagating Everbearers are selected and buds kept off each year for next year's planting. By this method we find it improves the variety, and your plants will be bred to produce the heaviest possible yield. Practically any soil that will grow a good garden crop will grow fine Strawberries. Plant crop short. So ORDER EARLY.

New Gem Everbearing

This veritable giant is creating a sensation throughout the berry growing section. The Gem Everbearer will give you luscious fresh Strawberries for your table all summer long from plants set same year. In our test we found this variety to hold its extra large size throughout the season. The berries have a good flavor and are very firm and hardy. Ripens evenly. Berries are sparkling bright red clear through. Gem is well named. It could be called faultless. So far we have found no fault. Gem will bring you big crops and large profits all summer and fall. No more lean years when you

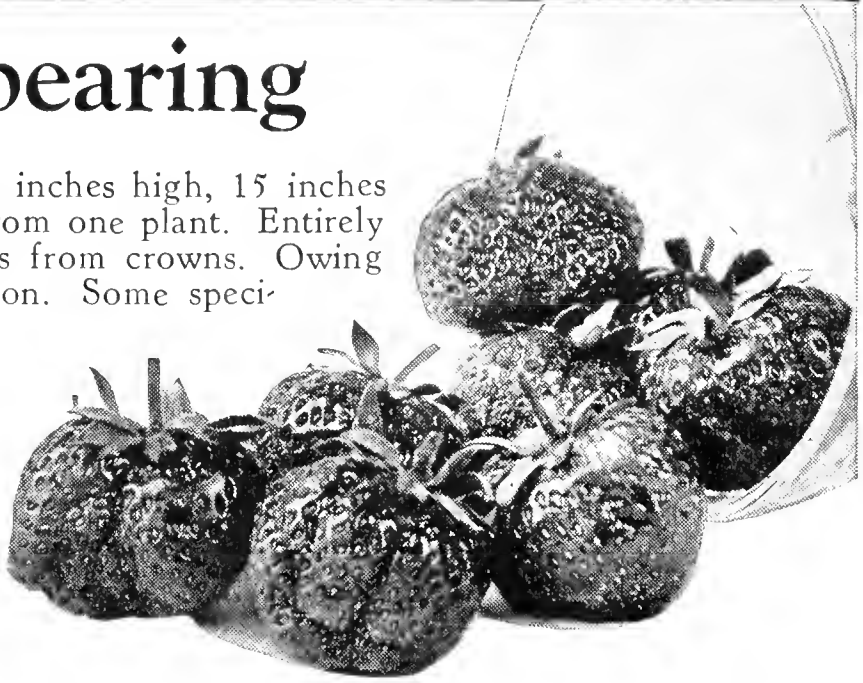

plant the Gems, as they rebud again if killed by frost. You will never appreciate the fruit of the New Gem until you see these large, sparkling jewels clinging on your own vines. Try out this new outstanding commercial variety this season. A new sensation of the Strawberry world. Before you turn this page consider the certified Gem Everbearer at our reasonable prices. Gem tied with black string in the field; no chance of mistake.

New Bush Everbearing

This peculiar Everbearer grows on large bushes 10 inches high, 15 inches across. We counted 15 fruit stems loaded with fruit from one plant. Entirely unlike any other Everbearer. Multiplies its new plants from crowns. Owing to this it is very productive. Berries large as Mastodon. Some specimens larger, but honey sweet. Finest quality. Ripen up even with attractive dark red color. Bears 60 days after set out. The United States Department of Agriculture has pronounced it the best Everbearing Strawberry so far produced. A real giant berry. The Wayzata, Rockhill and our BUSH Everbearing we believe are identical, all the same variety. Plants very limited, so order early.

Oak Hill's Special

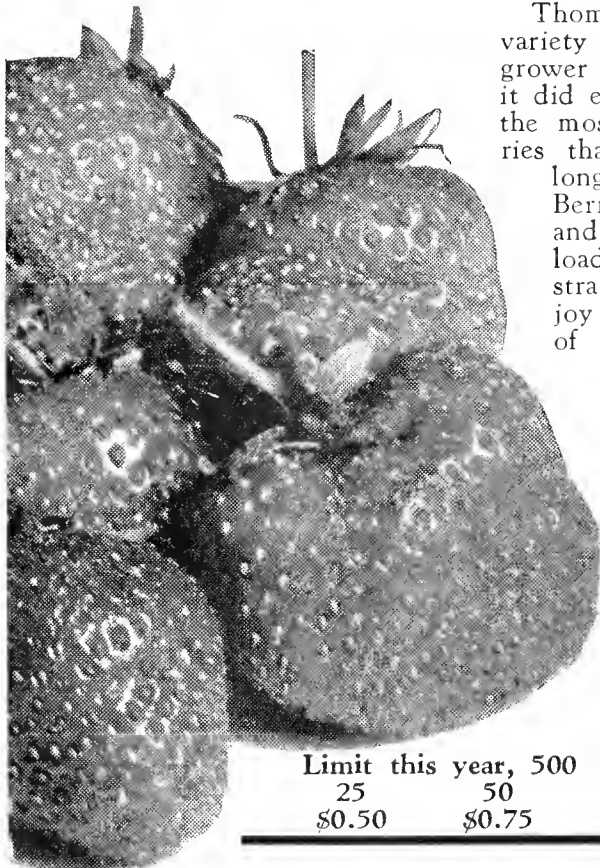

This wonderful berry is handsome in appearance, very large, round and smooth. Beautiful rich red color. Grown on long fruit stems, 8 to 10 inches long. Thick as a common slate pencil. Plants grow from 12 to 15 inches high. Particularly valuable for the longest season Strawberry known.

It bears large quantities of the choicest Strawberries for six weeks. Large as a small peach, with Nature at her best. From 350 plants we picked 150 quarts of Strawberries from one picking. Our berries were extra large throughout the berry season. We got 25c per quart; never had enough. Think of it, \$37.50 from one picking; 350 plants.

This is our favorite Strawberry. Extra sweet with two big bites to each berry. They sure are giants, both plant and berries. Hand cleaned plants. Plants tied with purple string. Our sandy loam plants will save you postage.

Thompson Late

Thompson Late is another new variety that every strawberry grower should try out. Last year it did exceptionally well. One of the most productive of strawberries that we have grown for a long time. Fine for sandy soil. Berries excellent in appearance and quality. Vines simply loaded with large, bright red strawberries that were a real joy to pick. In over 20 years of growing strawberries we believe that we have the three best late varieties grown. Thompson's Late, Williams' Late and Ambrosia. We have grown many late varieties but these are the best by test. So by all means try the Thompson Late this year. Plants are still limited. Our Certified plants are your protection. Postage rate, see page 20.

Williams' Late

We have been working on this variety for a long time. We are well pleased with this variety as a super strawberry in size as well as being extra late. Both plant and berries are extra large. Easy berry to pick because the boxes fill up in a hurry. Williams' Late have a delicious flavor. Extra sweet. A great seller at 25c a quart at our roadside stand late in June last year. Try this amazing late variety this year. You are absolutely sure of future profits if you plant Williams' Late. Extra choice large plants this year. All certified.

Catskill

Strawberry growers all over the country are watching Catskill very closely, particularly its size, vigor and quality. The test showed it outyields everything, even Dorsett and Fairfax. Ripens midseason. Fruit large and holds size well until end of season. From all station reports this new berry will be a winner.

Catskill sure has a record with us this past season for heavy fruiting. We picked eight quarts of Strawberries without moving any more than what we could reach. Fruit SUPER LARGE in size, next to the Fugiema. 18 berries filled a quart. Beautiful bright red color, sweet, firm and of the highest quality.

In all our 19 years of experience in growing Strawberries, we believe that right now we have the best varieties in the history of the Strawberry world. Plant Catskill, Dorsett, Fairfax and Fugiema. You will increase your profits with the fanciest Strawberries that you have ever seen before. With proper care any soil will yield up its riches. Hand Cleaned, State Certified, New Ground Plants.

Premier

Premiers were first put on the market in 1915, and plants of this fine variety spread over the country like wild-fire. It is a berry without a fault and with perfect satisfaction wherever grown.

One week earlier than any other variety in most localities. The Premier berry is medium dark, large size, above the average and very firm. Solid color, bright and glossy. They are beauties in a quart box. This famous variety is practically frost proof. Has a record of 728 16-quart cases per acre. Under natural conditions over \$1000.00 can be made from an acre of Premier. This cannot be done from any other farm crop.

A profit-making commercial Strawberry and a world-wide favorite of proven success. Actually more Premier plants have been sold the past few years than any other variety. Growers know the value of Premier and the consumers demand it. It is a mortgage lifter for any grower. Make your plans now. You can not go wrong by planting Premier, that was made famous by success. Plants tied with yellow string.

Senator Dunlap (Early)

The DUNLAP is the most popular Strawberry in the United States. Known everywhere. Fruit firm, of excellent quality. Good size and an unusually heavy bearer. Has a wide range of soil and climate. Yields big profits for growers. An old time favorite. Plant DUNLAP for preserves and for general use. Our biggest plant seller. Plants tied with brown string.

Dunlap is the easiest Strawberry grown. What is better than a good fresh shortcake or a can of fruit from the cellar in the winter when snow is piled mile high.

Dorsett

Dorsett was introduced by the U. S. Department of Agriculture. Its vigor, productiveness and dessert quality are outstanding. Ripens with Premier. Runs about 30 16-quart cases to the acre more than Premier. For size, quality and firmness Dorsett will run 100 per cent. The Dorsett has stood every test with us. Berries have a fine pineapple flavor. Easy to hull. Long stems, high off the ground and just loaded with extra fine, perfect, dark red berries.

ries. Blood-red inside. It takes only 23 of these fine Strawberries to fill a quart.

Has a record of over 11,000 quarts per acre. Fruit very large, conic in shape and a color of bright red. Its flavor is mildly sub-acid, aromatic, juicy, sweet, and very pleasing. Dorsett, Fairfax, Oak Hill Special and Premier about the same picking records, of over 11,000 quarts per acre. We would advise you to try out the above varieties in your locality and your soil. You will not be disappointed at fruiting time with any of these varieties.

It requires only 8000 plants to set one acre 18x36 inches. From all reports, Dorsett will be a prize-winner and a money-maker for berry growers. Our customers are having wonderful success with this variety. Dorsett and Fairfax brought 60c more per crate than other varieties. There must be some reason for this. There will be a large demand for Dorsett plants this spring for commercial plantings. So ORDER EARLY. Tied with orange string.

Fugiema

Fugiema is a new variety from Japan. We are deeply impressed by its fine strong growth, productiveness, quality and flavor. Fugiema's outstanding characteristic is the enormous size of the fruit. This berry is well named. Owing to its large size, it is named after the largest

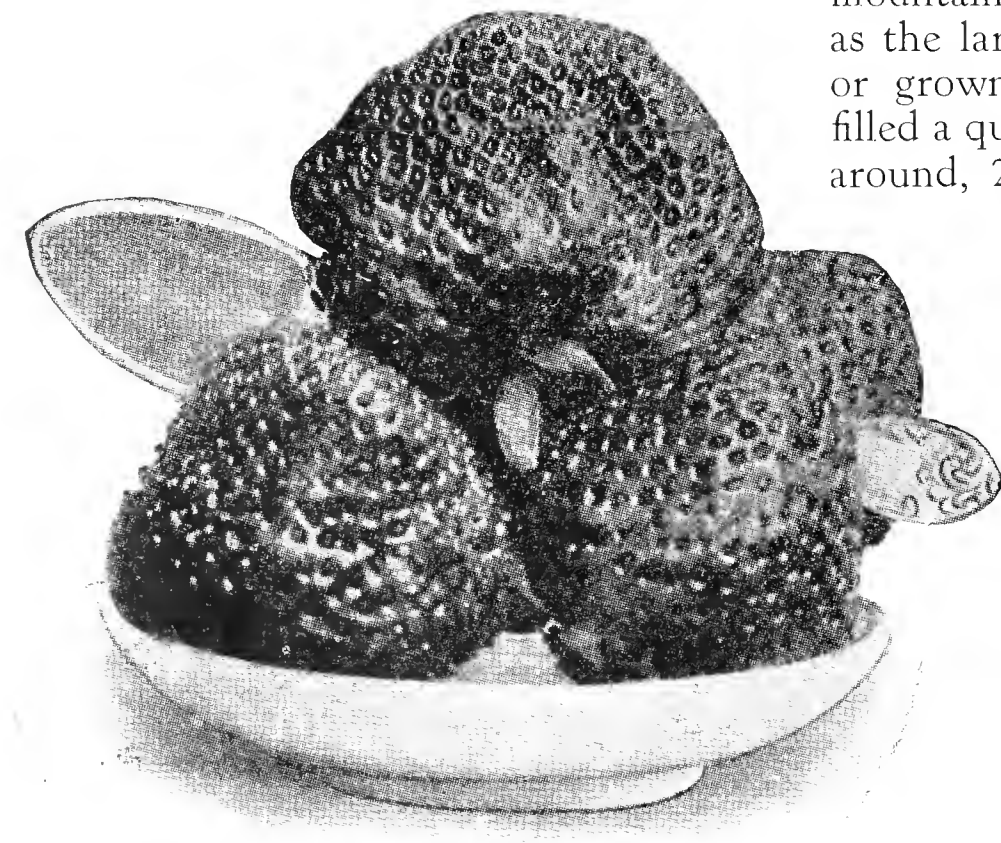

mountain in Japan. Fugiema has a record with us as the largest Strawberry that we have ever seen or grown. Last year we found 14 berries that filled a quart box. One berry measured 7½ inches around, 2¾ inches across, and weighed 1¾ ozs.

Ripe June 19th. Plant Fugiema this spring and surprise your friends with a real SUPER-GIANT STRAWBERRY.

We were sorry that we could not fill all orders for Fugiema plants last year, but our supply was very limited. We have a fine supply of certified choice new ground plants this year. We would advise to order early. Fugiema will be tied with green string for your protection so you will not get them mixed. See page 20 for Postage on small orders.

Fairfax

Fairfax has set a new standard of excellence. Topped the market every day last year. They appeal to any buyer as fancy Strawberries. Topnotcher to berry growers in both dry and wet seasons although it will do better in a wet season. An outstanding Strawberry of the highest quality. There is something indescribable about Fairfax. Its rich, sweet flavor commands admiration from our roadside customers. Many of our customers say that Fairfax and Dorsett have produced the most magnificent berries they have ever seen. So enjoy real Strawberries. The U. S. Dept. of Agriculture should get a lot of credit for this wonderful variety. Fairfax has large fruit stems and the fruit matures in clusters. Rich and very sweet. Flesh dark red and juicy. Dessert quality very high. Berries 6 inches around, two and one-half inches across. Only 24 berries fill a quart. Picked 8 quarts from a 19-foot row. Fairfax was the largest after the third picking. Good shipper and is medium early. Every variety we list is extra good; it is only a matter of choice which you choose—Early, Medium, or Late.

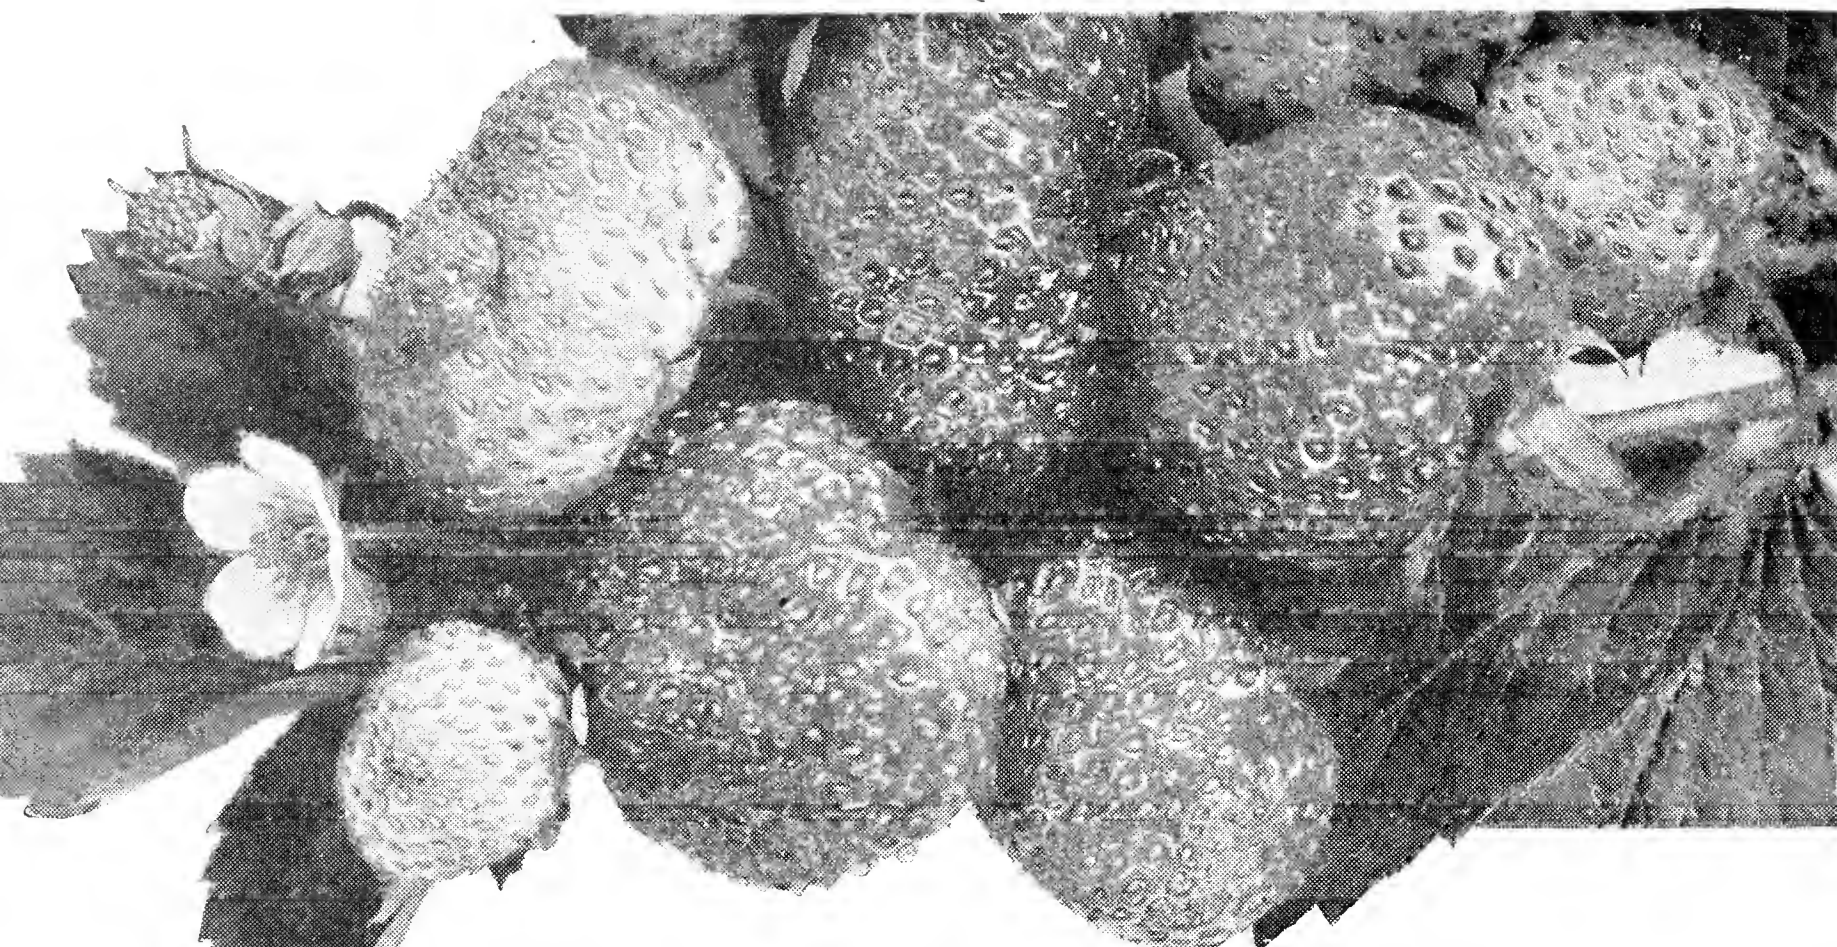

Experiments were started by us two years ago by selecting propagating plants. We do not let any of our propagating plants fruit. By this method our plants have extra heavy bearing strain. Do not forget this. It is worth a lot. Extra yield will mean extra profit to you at no extra cost of plants. We try to grow the best and discard the rest. By all means plant FAIRFAX this spring. EXTRA choice new ground plants. Protect yourself. Order EARLY. Tied with gray string.

Black Strawberry

Here is one of the finest quality berries that we know of. When you bite into the Black Strawberry with your eyes shut you will think it is a nice big black sweet cherry instead. It is truly a leader when it comes to its delicious flavor. When it comes to size, color, flavor and heavy yielding, all in one variety, then we think the Black Strawberry is an ideal variety. Perfect berries and lots of them. Solid clear through—and a flavor that no other strawberry has. We urge you to try our super-strain Black Strawberry Certified new ground, double root system plants. The best in ten years.

Ambrosia Late

This astonishing new variety marks a new era in growing Strawberries. Ambrosia is well named The Gift Food of the Gods. We have watched Ambrosia very closely while propagating plants. We are convinced that it is the Largest Extra Late Strawberry grown. Plants grow extra large and vigorous. Choice Strawberries, 27 to 33 berries fill a quart box. Rich sparkling bright red berries that are sweet and luscious. A bigger yield of Frost-Proof Strawberries that ripen as late as July 3rd after all other varieties are gone.

Ambrosia was a real eye opener to our Strawberry customers at our roadside fruit stand. Put your idle acres to work with this wonderful extra late variety. Do not fail to plant this faultless Strawberry this spring, as it will be widely planted when its merits are better known. Certified choice new ground plants. Ambrosia tied with blue string.

AMERICA'S TWO BEST GRAPES

Grapes once planted are good for a lifetime. Easy to grow and very productive. World's finest fruit right in your back yard when you plant Oak Hill's BEARING-AGE GRAPE plants.

Why wait 3 years for Grapes? Will bear after one growing season. May fruit a little the first year. Our plants are just what you want where quick yields are wanted at our unusually low price. A real buy of real quality.

NIAGARA. The best White Grape grown. Large bunches, very sweet and juicy. Hardy, very productive. Exceptional value for eating or market.

CONCORD. Blue. Most popular commercial grape grown in America. Vigorous, productive and hardy. Bunches and berries large, honey-sweet and juicy.

3 plants for 65c; 6 for \$1.00; 12 for \$1.50; 25 for \$2.50.

2 Year Old Medium Concord and Niagara: 12 for 50c; 25 for 75c.

Tree Strawberry

Also known as STRAWBERRY-RASPBERRY. Bushes from 18 to 24 inches high. Entirely hardy. Berries are very large. Bright shining red. Makes delicious jelly and jams. An immense yielder like a Raspberry as large as a Strawberry. This is an entirely new fruit and a real novelty to show your friends. Easy to grow. True Everbearing. 3 plants for 35c; 6 for 60c; 12 for \$1.00; 25 for \$1.50.

Red Flare Rhubarb

Red Flare is undoubtedly superior to all other varieties that we have ever grown. It is highly colored, attractive red stalk, of the largest size. Productive, flesh firm, brittle and tender. It is the sweetest, most pleasing flavored Rhubarb. Shoots up quickly in the spring. Nothing finer for pies and desserts than Red Flare. "The Peer of all Rhubarbs." The world's finest. Try this variety and you will discard all others. Think of it, a delicious Rhubarb pie right now—"UMM"

Jumbo Whole Roots, 25c Each; 5 for \$1.00

Asparagus Roots

MARY WASHINGTON. A new pedigreed strain, rapidly replacing all other varieties. U. S. Department of Agriculture introduced this famous new rust-proof variety after many years of scientific breeding. This remarkable strain has long mammoth tender shoots, unopened, and do not start to leaf out even when they are 2 feet high. Why not have the best, earliest and most delicious vegetable from your garden. When snow goes, asparagus comes. One planting will last 20 years. Start now. Heavy one-year-old roots: 25 for 30c; 50 for 50c; 100 for 90c; 300 for \$1.95; 500 for \$2.95; 1,000 for \$5.90. Rhubarb Roots

Plant peach-flavored Rhubarb roots and Asparagus roots if you want the first from the garden. Early Rhubarb brings big money for spring pies and fresh table sauce. Stalks extra large, very tender and mild flavor. About 12 to 25 plants for family use. Easily grown. Heavy one-year-old roots: 6 for 35c; 12 for 60c; 25 for \$1.00. Jumbo roots: 6 for 60c; 12 for \$1.00. Medium size whole root: 50 for \$1.00.

Latham

Here is a Red Raspberry that has won all records for big yields and perfect berries. World's greatest berry that has stood every test. In my experience, it is the largest and best Red Raspberry grown today. An ideal berry of giant size. Bushes loaded to the ground with great crops, borne in clusters the entire length. Acre record, 10,850 pints. Practically everbearing. Bears same year set, until late fall. King of all Reds with us. Extra large 1-year-old Bearing Age certified plants:

Hansen Bush Cherry

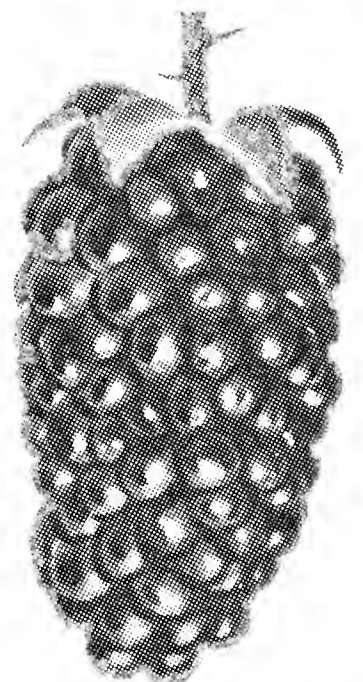

After 30 years of effort, Prof. N. E. Hansen has developed a new plant creation. The New Dwarf Bush Cherry which combines two useful qualities both in one plant. A beautiful early white flowering shrub which is a glorious sight. Silvery bluish green frosty foliage turning to red and gold in fall. A desirable good fruit and ornamental. Quick-bearing from ground up. Limbs just simply loaded with fruit. Hardy everywhere. Easy to grow. Bears early, heavily and annually. Large as the sweet cherry. Makes wonderful, delicious preserves, jellies, sauce, and rich, tasty cordial. Plant 4x6 ft. Grows 4 ft. high. Will be planted by millions when better known. 2 ft. high.

Each, 25c; 5 for \$1.00; extra large bushes, 50c each.

Jumbo Berry

Here is your opportunity—the sensation of the year. The Jumbo Berry. A cross between a Raspberry and a Loganberry. It is the sweetest and most delicious flavored fruit that I have ever tasted. You will never forget the taste of the Jumbo Berry. Does well staked like Dewberry. We think it is one of the most wonderful crosses ever made. Very prolific. Fruit large, dark wine color. Plants very limited this year. Size one-year-old.

Newburgh

NEWBURGH is the new sensation in the Red Raspberry. From all trials and tests by experiment stations, Newburgh is proving its worth. We have only fruited a few. Fruit grows in large clusters. Berries large, bright red. Extra heavy cropper. Claimed to yield 30% more fruit than the famous Latham. Fruit very firm, holds its size and very hardy. All eyes right now seem to be on this excellent Red Raspberry. If you realize the value of Oak Hill's new ground plants, you had better make your reservation now as our supply is limited. Give them a try-out. One-year-old Bearing-Age plants.

Alfred Blackberry

This new Blackberry is a combination of proven hardiness, prolific bearer of super-quality. Berries 2½ inches long, jet black, juicy, sugar-sweet berries without cores. Twice as large as ordinary Blackberries.

Plants are so strong and vigorous they survive severest Northern winters without mulching. They are splendid shippers because the berries are so firm. Plant generously—at least 50 for home gardens. They are making big money for other growers; they will do the same for you.

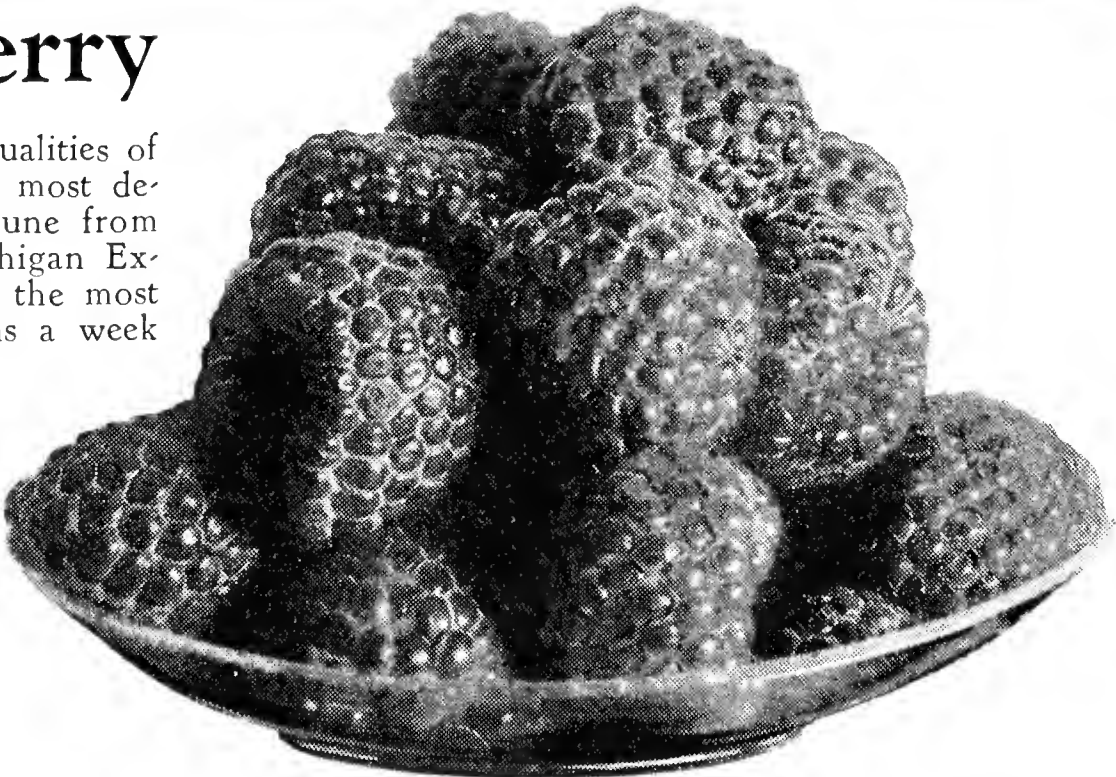

You save a year and will start right, when you plant our stocky root-cutting plants.

Logan Raspberry

It is hard to describe all the good qualities of the new Logan Blackcap. This is the most dependable variety grown. Almost immune from the virus diseases. Tested by the Michigan Experiment Station and is claimed to be the most promising variety grown there. Ripens a week to ten days earlier, heavier yielder and larger than Cumberland. Ripens its crop of fine glossy black berries quickly and does not string out over a long period. This means they market readily at good prices, before Cumberlands ripen. NEW LOGAN will sure gain popularity among growers who depend on Black Raspberries for their livelihood. 25 plants for 60c; 50 for \$1.00; 100 for \$1.75; 300 for \$4.00.

GIANT DAHLIAS

The GIANT Dahlias that we offer are the very "BEST BY TEST." We discard the rest. Dahlias are the easiest and most popular summer and autumn flowers to grow. Our Giant Dahlia blooms, 7 to 14 inches, were simply gorgeous. A wonderful combination of tints and colors, which attracted much attention at our Nursery from July until the last of October. Blooms like this must be seen to be fully appreciated.

BARBARA REDFERN. A large massive bloom, 10-12 inches across. Glistening old rose combined with old gold. Fine for cut flowers. Extra large blooms and very attractive.

EUREKA. A Giant WHITE BLOOM 8-10 inches on long 3-foot stems. Fine for cutting. A wonderfully good bloomer. The world's best white Dahlia grown. A ribbon winner wherever shown.

JANE COWL. An extraordinary Dahlia. Huge glistening bronzy buff 10-inch blooms. Brilliant gold petals twisted and curled. Very artistic. A real choice Giant Dahlia to grow. Awarded many sweepstakes and silver medals. Do not fail to grow Jane Cowl if you want a winner. Super-fine.

JERSEY'S BEACON. A succession of monstrous size flowers from early until late. Size 10-inch. Long stems. Bright scarlet, reverse buff with two-toned effect. Looks like a giant red from the distance. One of the most extraordinary varieties in cultivation, flowering early and continuously until frost. Do not fail to grow Dahlias this year. The easiest and the most attractive flower to grow.

LAVENDER GIANT. Size 10x3 in. Lavender of finest form, on long stiff stems. Perfect blooms and lots of them from August until frost. Our favorite Dahlia. The daintiest Dahlia of all.

PRIDE OF STRATFORD. Large flowers of a brilliant shade of cadmium-orange shading to light orange and yellow at base. Good bloomer for cut flowers. One that will always please.

KING OF SHOWS. A beautiful buttercup-yellow. Considered the best yellow large hybrid show Dahlia. Narrow folding petals. A general favorite. Don't pass it up.

WM. H. HOGAN. The best red and white striped Dahlia that we ever saw. If you like an odd as well as a beautiful Dahlia here is one that will be hard to beat. Each bloom is a bouquet. About 10 inches. Long stems. Free blooming. Very much admired.

RED GIANT. A bright red Hybrid Show Dahlia. Tall grower. Large blooms. Much admired. Unusually attractive. If you want a real Dahlia, this is it.

DAKOTA. Size 9x5 inches. Flame-red with shadings of gold. Unsurpassed in color. Full center. A splendid variety.

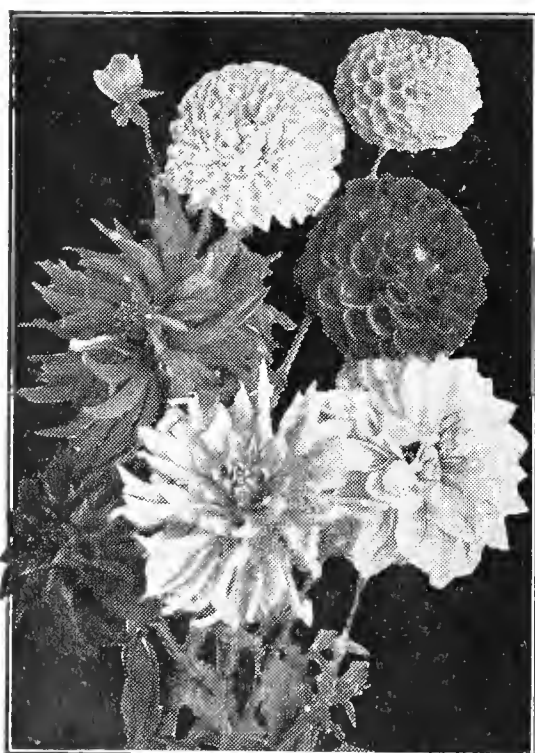

JUDGE MAREAN. A wonderful blending of yellow, gold and orange, suffused pink edged red. Early and a wonderful bloomer of giant flowers.

Our New Packing House

As We Are Today

Dear Customers and Friends Everywhere

As our annual catalog greets you, twenty years have rolled away. Many of our old customers are still with us. We must rack our brains to find the best way in which to spend those few years of leisure which are given to all of us. Nature and man alone hold the key to success. We do not try to exaggerate any of our varieties of plants. But we do live in an ideal locality, as we can grow anything under various conditions. Some varieties will do better in one locality than another. Our daily task only forces the soil to yield up its riches by growing the best nursery stock man can grow. Our new tract of land was untouched by plow until we first tilled the soil in 1935. It seems to have had the magic hand as we have the best strawberry plants that we have had in 10 years, in spite of the very dry season. So we have adopted a policy of co-operation, both with Nature and with our customers, with plants always at reasonable prices, and that policy has met with gratifying approval and success. We are glad to feel that we have established a confident and appreciative list of patrons who always look to us for their nursery needs. We would like you to honor us by adding your name to this list, and we feel sure that you will never regret a decision to sample our quality and efficiency.

Thanking you very kindly for reading our little catalog. Not as flashy as some but have tried to make it different. We hope to serve you all in 1937 with your orders, large or small.

Yours very truly,
EDW. L. LUBKE, Prop.

New Burbank Tomato

This is one of Luther Burbank's marvelous new creations. A Tomato by far the earliest and best we have ever grown. Just think of it, from seeds planted in open ground will bear fruit earlier than plants from a hotbed. Fruit ripe week to ten days earlier than any other extra early Tomato known. Ripens up perfectly without crack, spot or blemish. Color bright red, and smooth. A continuous bearer throughout the season. A firm, large Tomato of superior quality. Fruit has no open cavities. Seeds are few and small. Slice solid as a beefsteak. Plants resist wilt and other Tomato diseases. Unlike other Tomatoes, the skin peels freely from the rich, firm flesh. If you want a real early Tomato this year, then do not fail to plant this wonderful BURBANK TOMATO. WORLD'S EARLIEST. Packet about 500 seeds; ounce about 7,500 seeds. Pkt., 10c; ½ oz., 25c; 1 oz., 40c; 2 ozs., 75c.

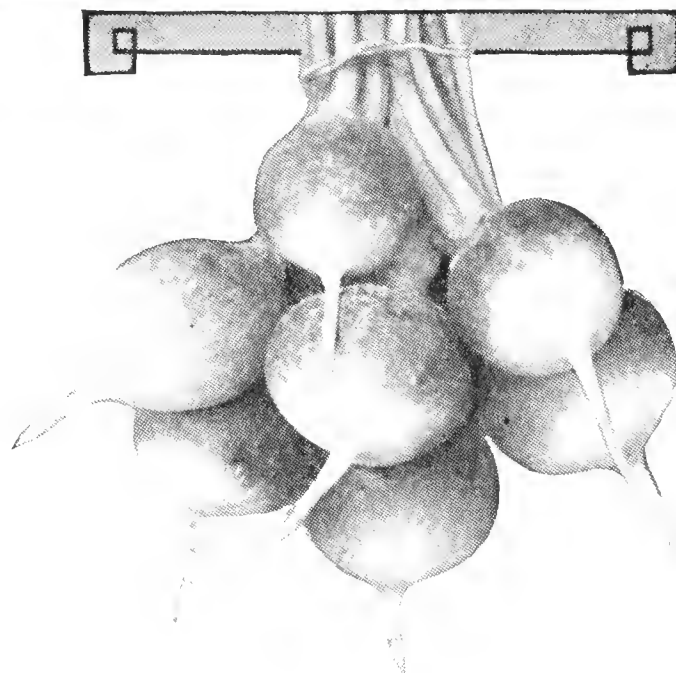

Lubke's Early Special

Have tested many varieties but found Burbank and Lubke's Special the two best tomatoes grown. Lubke's Special is just as early as Burbank and will bear wonderful fruit until cut down by frost. Good size until end of season. The tomatoes are round, smooth, solid, large size and free from cracks. Form in clusters of four or five. The quality and flavor are beyond criticism. One pkt., 15c; ½ oz., 30c; 1 oz., 50c.

Sugar Sweet Parsnip

Large Sugar is better known and more generally grown than any other sort; roots smooth, usually 15 inches long by 3 inches in diameter at the top; tender and sugary. Great cropper. Quality is improved by leaving them in the ground over winter. Pkt., 5c; 1 oz., 10c; ¼ lb., 25c.

Rosy Gem Radish

One of the earliest. Rapid grower. Perfectly round. Rich brilliant red at the top, blending into a pure white bottom. The most attractive Radish grown. Exceedingly tender, crisp and delicious. Unsurpassed as a table Radish. Best flavored mild Radish grown. Pkt., 10c; 1 oz., 15c; 4 ozs., 35c, postpaid.

Latest New Everbearing Varieties

DRY WEATHER EVERBEARING. Originated by Prof. A. F. Yeager western experiment station. Claimed to be a dry weather Everbearing. With us it was a fine sweet Strawberry of good size. Very promising.

EMPIRE ALL RED EVERBEARING. Originated in Canada. Also a very sweet strawberry. Bears well. Good size. Has done very well with us. Plants limited.

LUCKY BOY EVERBEARING. Introduced by Peter Henderson of New York. Claimed to out-yield Mastodon 50%. Better plant maker. Early and sweet. We fruited it this year for the first time. Did well.

GARDNER SUGAR SWEET EVERBEARING. Originated in Iowa. Berries oblong like a pineapple. Long neck. Easy to hull. Dark red sugar-sweet berries. It is well named. It's simply delicious. Bears Strawberries from July until winter.

GARDNER 999 GIANT EVERBEARING. Originated in Iowa. Claimed to have the old wild Strawberry flavor. Different from all other berries. Does well in the central and western States. Seems to grow in extra large bushes with us. Berries very large.

COLUMBINE EVERBEARING. Originated in Denver, Colo. Does well with us here. Berries very large, good color and have a fine flavor. Does well in central and western States. Named after the Colorado state flower. Give it a tryout.

EXCELSIOR EVERBEARING. Originated in Minnesota. This new variety did very well with us in a very dry season. Berries large and sweet. Bore very heavily for us. The quality berry. Try them.

LINDY EVERBEARING. Originated in Wisconsin. Berries with us, were extra large. Dark red. Very attractive, with excellent flavor. An ideal bearing variety with us all through the dry summer. A good plant maker.

Early Marvel Cabbage

We have been growing Early Cabbage for years and have at last found Early Marvel positively the earliest cabbage with large smooth heads in existence. Just think of it—5 to 8 pound heads in less than 60 days. Crop all comes about at one time. Every plant set makes a head of the finest quality. Fully developed heads will not burst for several weeks. Note photo. A field of Early Marvel is a wonderful sight. All choice heads. By all means plant Early Marvel this year for a new and better Early Cabbage.

Pkt., 15c; 2 for 25c, limit.

Golden Colonel Sweet Corn

Golden Colonel was the ALL-AMERICA Selection prize winner Sweet Corn for 1936. The newest development of ten years of breeding and crossing Country Gentlemen and Golden Bantam. Tall growing stalks with ears eight to ten inches long. Zig-zag shoe-peg kernels. Cylindrical shape with the richest golden color. Kernels very deep and narrow, nearly 1 inch long. Very tender, sugar sweet, with that rich creamy butter flavor. Golden Colonel sold at our roadside stand as fast as it matured at 35c per dozen. Plant our four varieties which we think are the best and have delicious Sweet Corn all summer. Golden Colonel seed sold at \$1.00 per pound last year. Our prices are very reasonable this year. Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 5 lbs., \$1.25, postpaid.
